

'One Bite At a Time'

An elderly African once asked a missionary, "How do you eat an African elephant?" When the missionary didn't have an answer, the old man said, "One bite at a time." He explained that it takes all of us working together to accomplish a large task.

Reaching the world for Christ may seem larger than an African elephant. There is only one route to success—each must do his or her part. This includes participating in the World Evangelism Fund. *Together we can make a difference in our world!*

The Lord is pouring out His Spirit all over the world. Recent statistics* are thrilling:

- More Muslims have come to Christ in the last 10 years than in the previous 1,000 years.
- The former Soviet Union is now 36% Christian. This is 5 times larger than the communist party membership ever was.
- In India, 15,000 people are baptized every week.
- In a generation, China has grown from 1 million to over 50 million believers.
- In Latin America, evangelical Christianity has been growing 3 times faster than the population rate.
- In Africa, 20,000 people a day are coming to Christ.
- Worldwide, 80,000 people a day are being saved.

This news is great, but there is still much to do. Each of us must continue to respond to the needs of our world by giving to provide the light of full salvation.

Yes, Together We Can Make a Difference!
