## “Excavating the Bible: The ancient tunnels of Jerusalem”

(First 30 minutes of volume) SNU library call number DS 111.7 .E9 2000 v. 3

Subterranean tunnels weave underground passageways below Jerusalem. The Temple Mount itself is built on arches leading to tunnels and passageways, many of which have yet to have been explored. This video follows the footsteps of King David, King Solomon, Zedekiah and Hezekiah, as it explores the biblical history that lies beneath the surface of contemporary Jerusalem.
