

For Ages 8 and Up

BEGIN TWISTING	pinched. Twist the balloon two or three times to ensure the bubble will stay in tact when a fold twist (as in the 3-Twist Dog) or lock twist (as in the Basic Dog) is used. Be sure to make all of your twists in the same direction so that while twisting one bubble you won't untwist another.	FORMING A "SUBBLE" OR PINCH & TWIST Forming a sculpture amounts to making bubbles of various sizes and then twisting them together in different combinations. Forming a bubble is as simple as pinching the balloon firmly between your thumb and forefinger and twisting the bubble with the other bubble is as	knot is n. Do around the loc	the open end of the balloon completely over the nozzle of the hand pump. Hold balloon in place with one hand while pumping with the other - be sure to leave space at the end of the balloon with no air in it. As you begin to make shapes, air will be pushed into the empty area.	BASIC BALLOON INFLATION The easiest way to inflate the 260 Twisty is with the pump that is included with this kit. To do this place
7 The 3-Twist Dog is now complete.	Fold again about 6" down to begin forming the body and the back legs.	Fold the balloon about 6" down from the head.	Twist completely around at the middle point.	Fold the balloon about 5" from the knotted end.	HOW TO MAKE A 3 Inflate the balloon leaving 6" uninflated.
	Squeeze and twist, completely around as in Step 3 to complete body and back legs.	5 Squeeze and twist, completely around as in Step 3 to form the front legs.	You should have the ears and face of the dog.	2 Squeeze the balloon together in the middle of the 5" fold.	3-TWIST DOL
