

Talkin' 'bout love

Listen to the heavenly beat
It's the sound of the gospel being taken to the streets
Saints are dancing to the joyful sound
With the rocks and the stones, with creation crying out
To the noise of injustice and the pain of this world
There's a voice that is righteous, and it's dying to be heard

*And it's talkin' 'bout love
Talkin' 'bout faith
Talkin' 'bout Jesus being the answer
To the whole of the human race
There will be freedom
And there will be peace
When we choose to move in power
In the power of His grace*

Now there's a Spirit and there is a Truth
There's a new life in God that sets captive spirits loose
There's a Commission and there's a Command
To tell nations and peoples that the Kingdom is at hand
In the face of oppression and the cries of despair
There's a voice of compassion and a word for ears to hear

And it's talkin' 'bout love...

In the distant thunder
Hear the gates being opened wide
It's the sound of revival
And it will not be denied

And it's talkin' 'bout love...
